

COVID-19 practices - We Are Here For You!

At EVS we are committed to being here as usual to serve the emergency and urgent care needs of your pet. For the time being we are providing clients the option of either in person or curbside services to meet everyone's health risk situation. Our goal is always to help keep you and our staff as safe as possible while still providing quality compassionate care for your furry family member. We are also requesting if possible, for you to use our on-line registration form [here](#) to help speed up transfer. Please call us for more details at **630-960-2900**.
